ANUKRIT BISWAS

Computer Science & Engineering Student | Cybersecurity & Software Development

Burdwan, West Bengal, India • GitHub: AnukritBiswas-ps

PROFESSIONAL SUMMARY

Computer Science and Engineering undergraduate at Kalinga Institute of Industrial Technology, expected to graduate in 2028. Has foundational knowledge of C, Python, Linux, cybersecurity, and front-end web development. Built and published a browser-based Minesweeper game using HTML, CSS, and JavaScript. Interested in developing practical skills through projects and pursuing opportunities in cybersecurity and software development.

EDUCATION

Kalinga Institute of Industrial Technology (KIIT) — **Expected 2028**

B.Tech, Computer Science and Engineering — CGPA: 6.69/10

Class XII: 81% • Class X: 94.2%

TECHNICAL SKILLS

Programming	C, Python
Web Development	HTML, CSS, JavaScript; front-end fundamentals
Operating Systems	Linux fundamentals and command-line usage
Cybersecurity	Foundational knowledge through coursework

PROJECT

Minesweeper | HTML, CSS, JavaScript

Developed a browser-based version of the classic Minesweeper game with three difficulty levels.

- Implemented first-click safety, interactive flagging, a game timer, and keyboard-based restart functionality.
- Added light and dark themes, an instructions popup, and animated background effects.
- Published the project source code and live demo on GitHub.

Live Demo • Source Code

COURSEWORK

Linux, Cybersecurity, and Front-End Web Development.
